

eAdjudication®

Simple and effective software for pain-free clinical adjudication

Why use a software to manage clinical adjudication committees?

Do you find that:

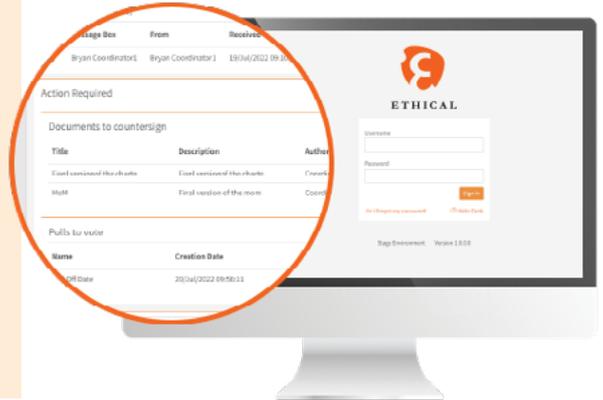

- Managing large volumes of clinical data is risky?
- Ensuring data quality and GCP compliance is demanding?
- Coordinating adjudication activities is quite complex?
- Adhering to deadlines and governance is often a challenge?

eAdjudication® is the solution!

- ✓ Seamless integration with EDC systems, safety databases, DICOM/PACS clinical imaging
- ✓ Robust quality control process for adjudication consistency
- ✓ Flexible system configurations for forms, workflows, data exports, and integrations
- ✓ Real-time monitoring of process timelines and key performance indicators (KPIs)

eAdjudication® Software Features

eAdjudication® is a comprehensive software solution supporting the full management of all types of clinical adjudication committees, incorporating process best practices, quality control, and the flexibility to adapt to any scenario.

Data Manageability

- Streamlined case preparation and processing
- Online editors for WORD, EXCEL, PDF and DICOM files
- AI-powered redaction tool for PDFs and DICOM images

Security and Confidentiality

- Quality control metrics & process
- Inter/Intra-variability control
- Dedicated role-based views and data segregation
- Adjudication forms with edit check

Workflow & Communication

- Flexible system configurations for forms, workflows, data exports, and integrations
- Configurable adjudication workflow to adjust to sponsor, CRO, or ARO needs

Process Governance

- Real-time monitoring of process timelines and KPIs
- Self-service data export with real-time access
- GCP-compliant audit trail for transparency and compliance

eAdjudication® is GCP compliant, secure and validated

- ISO 27001 hosting, backup and business continuity.
- GAMP5 validation documentation and support.
- Secure 21 CFR Part 11-compliant audit trail.
- EU GMP Vol. 4 Annex 11, EU GDPR.

Who and how does eAdjudication® help?

eAdjudication® helps **Clinical Teams** and **Endpoint Adjudication Committees** work easier, faster and more accurately.

STAKEHOLDERS	HOW DOES eADJUDICATION® HELP
Clinical Trial Leaders	<ul style="list-style-type: none"> • Tailored Managed Services • Flexible configuration & strict charter compliance • Real-time oversight of all adjudication operations
Endpoint Adjudication Committee Members	<ul style="list-style-type: none"> • Organized and easy to navigate events' packages • Easy submission of assessments • Package update notifications
Trial Coordinators Investigator Sites	<ul style="list-style-type: none"> • Fast upload of medical records • Smart redaction technology • Real-time query alerts
Quality Assurance Managers	<ul style="list-style-type: none"> • Validation package documentation • GxP compliance • Clone system for UAT and reviewers' qualification
Data Managers	<ul style="list-style-type: none"> • Flexible integration with any EDC • Real-time download of structured data and metadata • Integrated quality control

What do customers say about eAdjudication®?

This current system is undoubtedly worlds easier than a manual review. Reduces scan, signature, and upload times and ensures that everything is in order.

- Adjudication Committee Member

Using the eAdjudication® solution drastically simplifies the whole adjudication process. It can manage the entire process: training, event management, submission, and queries

- Adjudication Coordinator

I love working with Ethical. They are always very flexible with the various formats and types of exports. It is also possible to schedule or obtain them in real-time from the platform.

- Data Manager

I find Ethical GmbH very innovative and flexible. They find solutions to all our requests and they constantly adapt to different volumes of events even with short notice.

- Sponsor's Study Leader

ETHICAL

Clinical and Endpoint adjudication (CEA), Protocol Deviations (PD), Data and Safety Monitoring Boards (DSMB), and Data Monitoring Committees (DMC) management on cost-effective, compliant software solutions for over 16 years.

 **25+ years**
in clinical data management

 **16+ years**
in endpoint adjudication

 **300+**
international clinical trials

 **10,000+**
investigator sites

 **100,000+**
patients involved
